Lung Cancer
A Pathfinder

The Learning Center provides materials for information and convenience only. They are not to be substituted for medical advice. Medical information is often controversial and continually changes. Please talk to your doctor about your specific concerns.

The Learning Center provides a wide range of materials, and each location has different resources. Please call ahead to learn which location has the resources you need.

To learn more or ask questions, please call, email or visit The Learning Center.

Websites

The University of Texas MD Anderson Cancer Center Lung Cancer Page
http://www.mdanderson.org/diseases/lung

Lung Cancer Alliance
http://www.lungcanceralliance.org
This is a comprehensive website with information on education, including an overview of lung cancer, early detection, diagnostic imaging and ALCASE publications. Other categories include support, advocacy and events/updates.

MedlinePlus Lung Cancer and MedlinePlus Mesothelioma
http://www.nlm.nih.gov/medlineplus/lungcancer.html
http://www.nlm.nih.gov/medlineplus/mesothelioma.html
MedlinePlus is the National Institutes of Health's website for patients and their families and friends. These sites have health information from the National Library of Medicine, the world's largest medical library. Also, link to other organizations and trusted sources to learn more about treatment, clinical trials, research and support.

CancerNetwork
http://www.cancernetwork.com/lung-cancer
Written for the health professional, there are many current news articles, commentaries and excerpts from medical handbooks on a wide variety of topics dealing with all aspects of lung cancer.

lungcancer.org
http://www.lungcancer.org
This site offers general information on all aspects of lung cancer for patients and caregivers. It also contains a section that addresses the latest clinical trials, teleconferences, meetings and other resources. A unique aspect of this website is telephone counseling where you can call and speak to a professional oncology social worker.

American Lung Association
http://www.lung.org/lung-disease/lung-cancer
The mission of the American Lung Association is to prevent lung disease and promote lung health.

National Lung Cancer Partnership
http://www.nationallungcancerpartnership.org
National Lung Cancer Partnership is a nonprofit organization, originally formed in 2001 and incorporated in 2003. Their mission is to decrease deaths due to lung cancer and help patients live longer and better through research, awareness and advocacy.

RadiologyInfo
http://www.radiologyinfo.org/content/therapy/thera-lung.htm
RadiologyInfo is the public information website developed and funded by the American College of Radiology and the Radiological Society of North America. It was established to inform and educate the public about radiologic procedures and the role of radiologists in health care, and to improve communications between physicians and their patients. This website has an explanation of what happens during radiation therapy and possible side effects.
