

Bone Marrow and Stem Cell Transplant

A Pathfinder

The Learning Center provides materials for information and convenience only. They are not to be substituted for medical advice. Medical information is often controversial and continually changes. Please consult your health care provider to discuss your specific concerns.

The Learning Center locations provide a wide range of materials, and each site's resources are different. Please call ahead to learn which location contains the resources you need. The Learning Center staff provides skilled, individualized service and will be happy to help you.

For more information, or if you have questions, please call, e-mail or visit The Learning Center.

Internet Resources

The University of Texas M. D. Anderson Cancer Center Blood and Marrow Transplantation Page

<http://www.mdanderson.org/departments/bmt/Index.cfm>

The Bone Marrow Foundation

<http://www.bonemarrow.org/>

The Bone Marrow Foundation is a non-profit organization created to provide financial assistance, education and support to bone marrow transplant patients and their families. Two unique parts of this site include a “Support Line” and “Ask the Expert” features.

National Bone Marrow Transplant Link

<http://www.nbmtlink.org/>

This site provides information on bone marrow transplants and publications designed to help you understand and deal with the logistics of bone marrow transplantation, finances and medical insurance. It includes frequently asked questions, BMT survivor stories and peer support program information.

Blood & Marrow Transplant Information Network

<http://bmtinonet.org>

This is a non-profit organization dedicated exclusively to serving the needs of persons facing a bone marrow, blood stem cell or umbilical cord blood transplant.

National Marrow Donor Program

<http://www.marrow.org>

This site provides updates and facts about unrelated marrow, cord blood and peripheral blood stem cell transplantation.

Bone Marrow Donors Worldwide

<http://www.bmdw.org/>

This organization’s continuing effort is to collect the HLA phenotypes (tissue types) of volunteer bone marrow donors and cord blood units, and to coordinate their worldwide distribution.

National Transplant Assistance Fund

<http://www.transplantfund.org>

This non-profit organization's home page provides financial, social and emotional support to transplant candidates.
