

The Lung

A Pathfinder

The Learning Center provides materials for information and convenience only. They are not to be substituted for medical advice. Medical information is often controversial and continually changes. Please consult your health care provider to discuss your specific concerns.

The Learning Center locations provide a wide range of materials, and each site's resources are different. Please call ahead to learn which location contains the resources you need. The Learning Center staff provides skilled, individualized service and will be happy to help you.

For more information, or if you have questions, please call, e-mail or visit The Learning Center.

Internet Resources

The University of Texas M. D. Anderson Cancer Center Lung Cancer Page

<http://www.mdanderson.org/diseases/lung>

The University of Texas M. D. Anderson Cancer Center Thoracic Center Page

http://www.mdanderson.org/care_centers/thoracic/

Lung Cancer Alliance

<http://www.lungcanceralliance.org>

This is a comprehensive Web site with information on education, including an overview of lung cancer, early detection, diagnostic imaging and ALCASE publications. Other categories include support, advocacy and events/updates.

MedlinePlus Lung Cancer

<http://www.nlm.nih.gov/medlineplus/lungcancer.html>

This site has health information from the National Library of Medicine, the world's largest medical library. MEDLINEplus has extensive information from the National Institutes of Health and other trusted sources about treatment, clinical trials, research and links to other organizations.

Cancer Network

<http://cancernetwork.com>

Choose *Cancers* on the left, and then *Lung Cancer*. You must first register with your e-mail and create a password. Written for the health professional, there are many current news articles, commentaries and excerpts from medical handbooks on a wide variety of topics dealing with all aspects of lung cancer.

It's Time to Focus on Lung Cancer

<http://www.lungcancer.org>

This site offers general information on all aspects of lung cancer for patients and caregivers. It also contains a section that addresses the latest clinical trials, teleconferences, meetings and other resources. A unique aspect of this Web site is "Ask the Expert" where questions can be e-mailed to an oncology nurse, and a response is given within 48 hours.

Lung Cancer Online

<http://www.lungcanceronline.org>

This site serves as a gateway to a wealth of information. There are many helpful links to information and links to other Web sites and organizations.

American Lung Association

<http://www.lungusa.org>

The mission of the American Lung Association is to prevent lung disease and promote lung health. At the top choose *Diseases A-Z*, and then *Lung Cancer, Facts About*.

The National Women's Health Information Center

<http://www.4women.gov>

This is the federal government's source for women's health. Click on *Health Topics*, and type "lung cancer" in the *Find Health Publications* search field.

Association of Cancer Online Resources

<http://www.acor.org/types/info.html?pnum=62956>

This Web site offers online support groups for non-small cell lung cancer.

The Mesothelioma Asbestos Lung Cancer

<http://www.mesothelioma-net.org/default.asp>

The Mesothelioma Asbestos Lung Cancer Web site provides mesothelioma asbestos lung cancer patients, their families and friends with up-to-date information about asbestos, lung cancer and mesothelioma cancer.

Health Communities

<http://www.oncologychannel.com/lungcancer>

Healthcommunities.com's mission is become the leading provider of physician developed and monitored medical information, continuing medical education and resources for empowerment of health care consumers and medical professionals.

Women Against Lung Cancer

<http://www.womenagainstlungcancer.org/index.cfm>

Women Against Lung Cancer is a non-profit organization, originally formed in 2001, and officially incorporated in 2003. Their mission is to decrease deaths due to lung cancer and help patients live longer and better, through research, awareness and advocacy. Choose *Lung Cancer Info* at left.

Radiology Info

<http://www.radiologyinfo.org/content/therapy/thera-lung.htm>

Radiology Info is the public information Web site developed and funded by the American College of Radiology and the Radiological Society of North America. It was established to inform and educate the public about radiologic procedures and the role of radiologists in health

care, and to improve communications between physicians and their patients. This Web site has an explanation of what happens during radiation therapy and possible side effects.
