## D1090 Other Conveying Systems

---

### PART 1 - GENERAL

---

#### 1.01 OVERVIEW

- A. This section includes pneumatic tube, electric track vehicle, trash and linen collection systems.

---

### PART 2 - DESIGN CRITERIA

---

#### 2.01 GENERAL

- A. Design Requirements
  1. Provide 6 inch pneumatic tube system at Nurse Stations and elsewhere as required. The system shall be compatible with and integrated into the existing system to allow communication to any new and existing stations.
  2. If required by the Facility Program, provide an electric track vehicle (ETV) system at Nurse Stations and elsewhere as required. The system shall be compatible with and integrated into the existing system to allow communication to any new and existing stations.
  3. Provide pneumatic trash and linen collection systems on each floor. Evaluate existing systems to determine if they can be extended into new floors or if separate systems are required.

---

### PART 3 - SPECIAL CONTRACT DOCUMENT REQUIREMENTS

---

#### 3.01 GENERAL

- A. Not Applicable

---

### PART 4 - PRODUCTS

---

#### 4.01 GENERAL

- A. Warranties on systems shall include a 12-month parts warranty and 12-month continued, full maintenance
- B. Refer to Master Construction Specifications.
